CONTENTS OF VOLUME 31

ALEXANDER, H. E.—See Zamenhof, S.

ALLARD, C., DE LAMIRANDE, G., and CANTERO, A.—Mitochondrial population of mammalian cells. III. Number of mitochondria per average cell of rat liver tumor induced by 4-dimethylaminoazobenzene. Significance in the comparative study of the mitochondrial fraction properties of normal tissues and tumors, 103.

ALLEN, T., MACLEOD, A. V., and YOUNG, E. G.—On the nutritional requirements of young children with particular reference to calcification, 447.

ANNAU, E.—See Rice, C. E.

ANNAU, E. and KONST, H.—Enzymatic changes in the liver of mice following feeding of the insecticide aldrin (hexachlorohexahydrodimethanonaphthalene), 146.

BABINEAU, L. M.—See Pagé, E.

BARLOW, J. S. and MANERY, J. F.—A comparison of the method of flame photometry with the chemical methods for the determination of cations in tissues, 326.

BEGG, R. W., DICKINSON, T. E., and MILLAR, J.—The effect of benign and malignant tumors on liver catalase activity, 315.

BEGG, R. W., DICKINSON, T. E., and WHITE, A. V.—The influence of some hormonal, dietary, and tumor factors on liver catalase activity in rats, 307.

BERNARD, R.—See Duchesne, D. D.

BEST, C. H., LUCAS, C. C., PATTERSON, J. M., and RIDOUT, J. H.—Some effects of vitamin B_{12} weanling rats consuming hypolipotropic diets, 135.

BEVERIDGE, J. M. R.—See McLean, J. R.

BIGELOW, W. G.—See McBirnie, J. E.

BOULANGER, P.—See Rice, C. E.

BOYD, C. E.—See Boyd, E. M.

BOYD, E. M.—The lipid composition during storage of human plasma, pooled, irradiated, and dried, 84.

BOYD, E. M. and BOYD, C. E.—Antihistaminics and apomorphine-induced vomiting, 320.

BOYD, E. M., MCEWEN, H. D., and SHANAS, M. N.—The lipid composition and water content of brain, heart, lung, liver, gut, and skin in the host component of the albino rat – Walker carcinoma 256 dual organism, 493.

BURTON, A. C.—See Inch, W. R.

BUTLER, G.—Chemistry of the nucleic acids, 222.

CANTERO, A.—See Allard, C.

CHUBATY, W.—See Lepp, E.

CLARKE, D. W. and MONKHOUSE, F. C.—The combination of heparin and bovine serum albumin, 394.

CLARK, E. M.—See Wood, W.

COLLIER, H. B. (With the technical assistance of S. C. MCRAE)—Enzyme inhibition by derivatives of phenothiazine. VI. Inhibition of glyoxalase activity of human and rabbit erythrocytes, 195.

COLLIP, J. B.—See Derrick, J. B.

DAOUST, R.—See Stevens, C. E.

DENEAU, G. A., WAUD, R. A., and GOWDEY, C. W.—A method for the determination of the effects of drugs on the pain threshold of human subjects, 387.

DERRICK, J. B. and COLLIP, J. B.—Further studies on a pituitary factor with specific influence on metabolism, 117.

DICKINSON, T. E.—See Begg, R. W.

DUCHESNE, D. D. and BERNARD, R.—Further studies of lipotropism in the domestic duck (White Pekin), 474.

DUNCAN, D.—See Franklin, A. E.

DUNCAN, D., FRANKLIN, A. E., WOOD, W., and RHODES, A. J.—Cultivation of poliomyelitis virus in tissue culture. V. Observations on virus propagation in certain animal tissues with a synthetic nutrient medium, 75.

ELWYN, D.—Biogenesis of the nucleic acids, 236.

FARRELL, L.—Induced variation and strain selection of *Penicillium chrysogenum* in relation to titer of natural penicillins, 512.

FERGUSON, J. K. W.—See Prueter, R. D.

FLEMING, J. O.—See Linford, J. H.

FRANKLIN, A. E.—See Duncan, D.

FRANKLIN, A. E., DUNCAN, D., WOOD, W., and RHODES, A. J.—Cultivation of poliomyelitis virus in tissue culture. IV. Further observations on virus propagation in human tissues with a synthetic nutrient medium, 64.

FRASER, M. S.—See Tuba, J.

GLEGG, R. E. and LEBLOND, C. P.—Pressure as a possible cause of dissolution and redeposition of bone and tooth crystals, 202.

GOWDEY, C. W.—See Deneau, G. A.

GRAHAM, A. F.—The viruses as nucleoproteins, 279.

HINTON, N. A., NELLES, J. E., and REED, G. B.—The incidence of *E. coli* group 0111 in sporadic infantile gastroenteritis and the sensitivity to antibiotics of the strains isolated, 431.

HOLDER, M. A.—See Reed, R. W.

HNATKO, S. I.—The isolation of bacteriophages for mycobacteria with reference to phage typing of the genus, 462.

INCH, W. R. and BURTON, A. C.—Variation of the hydrogen ion concentration of healthy intact skin, 127.

JAQUES, L. B.—See Lepp, E.

JESKE, I.—See Tuba, J.

KARACHI, H. H.—See McBirnie, J. E.

KONST, H.—See Annau, E.

KOVACS, E.—Further studies on the neurolytic properties of the spinal fluid in health and disease, 109. Autolysis in normal and pathological cerebrospinal fluids, 358. Nucleases in the cerebrospinal fluid. I. Ribonuclease in normal, neurologically normal, and in pathological CSF's, 437.

DE LAMIRANDE, G.—See Allard, C.

LEBLOND, C. P.—See Glegg, R. E.; Stevens, C. E.

LEIDY, G.—See Zamenhof, S.

LEPP, E., CHUBATY, W., and JAQUES, L. B.—Effect of phenylindanedione and dicumarol in experimental frostbite, 173.

LINFORD, J. H. and FLEMING, J. O.—The absorption of light, in the visible and ultraviolet, by certain steroids in sulphuric acid and ethanol solutions, 182.

LUCAS, C. C.—See Best, C. H.

MCBIRNIE, J. E., PEARSON, F. G., TRUSLER, G. A., KARACHI, H. H., and BIGELOW, W. G.—Physiologic studies of the groundhog (*Marmota monax*), 421.

MCCREERY, P. M.—See Ranta, L. E.

MCEWEN, H. D.—See Boyd, E. M.

MCLEAN, J. R. and BEVERIDGE, J. M. R.—The prevention of liver necrosis by alphatocopherol, methionine, and cysteine by oral and parenteral routes, 417.

MACLEOD, A. V.—See Allen, T.

MADSEN, N. B. and TUBA, J.—The role of alkaline phosphatase in intestinal absorption. I. The kinetics of phosphatase action on various substrates, 1.

MAINLAND, D. and SUTCLIFFE, M. I.—Statistical methods in medical research. II. Sample sizes required in experiments involving all-or-none responses, 406.

MANERY, J. F.—See Barlow, J. S.

MILLAR, J.—See Begg, R. W.

MONKHOUSE, F. C.—See Clarke, D. W.

NELLES, J. E.—See Hinton, N. A.

PAGÉ, E. and BABINEAU, L. M.—The effects of diet and cold on body composition and fat distribution in the white rat, 22.

PATTERSON, J. M.—See Best, C. H.

PEARSON, F. G.—See McBirnie, J. E.

PLUMMER, P. J. G.—See Rice, C. E.

POULIK, M. D.—Purification of diphtheria toxoid by continuous electrophoresis on filter paper, 485.

PRUETER, R. D., WARSON, M. D., and FERGUSON, J. K. W.—Sex difference in resistance of rats to thyroid hormone, 99.

RANTA, L. E. and MCCREERY, P. M.—The antigenicity of cholera vaccine prepared in fluid medium, 338.

RAWLINSON, H. E.—See Tuba, J.

REED, G. B.—See Hinton, N. A.

REED, R. W.—Slide culture of tubercle bacilli. I. Media and methods, 367.

REED, R. W. and HOLDER, M. A.—The antibacterial spectrum of ustilagic acid, 505

RHODES, A. J.—See Duncan, D.; Franklin, A. E.; Wood, W.

RICE, C. E., BOULANGER, P., and PLUMMER, P. J. G.—Parallel studies of complement and blood coagulation. VIII. The effect of choline and methionine on the changes induced in guinea pigs by the injection of carbon tetrachloride, 162.

RICE, C. E., BOULANGER, P., PLUMMER, P. J. G., and ANNAU, E.—Parallel studies of complement and blood coagulation. IX. The effect of methionine, choline, and cystine on the changes induced by ethionine, 343.

RIDOUT, J. H.—See Best, C. H.

SHANAS, M. N.—See Boyd, E. M.

SHAW, L. G.—See Tuba, J.

SHIMADA, F. T.—See Wood, W.

SMITH, D. B.—Some biological effects of ionizing radiations and their effects on desoxyribonucleic acid, 290.

STEVENS, C. E., DAOUST, R., and LEBLOND, C. P.—The desoxyribonucleic acid of interphase and dividing nuclei, 263.

SYMPOSIUM ON NUCLEOPROTEINS, 222 (See papers by Butler, G., Elwyn, D., Zamenhof, S. *et al.*, Stevens, C. E. *et al.*, Graham, A. F., Smith, D. B.); Round Table Discussion, 302.

SUTCLIFFE, M. I.—See Mainland, D.

SZERB, J. C.—The response of circulating eosinophile cells to morphine and related substances, 8.

TRUSLER, G. A.—See McBirnie, J. E.

TUBA, J. Serum alkaline phosphatase levels in mice of the C_{57}, C_3H, and A strains, 41. Liver glucuronidase activity of rats in various experimental states, 18. See Madsen, N. B.

TUBA, J., RAWLINSON, H. E., FRASER, M. S., and JESKE, I.—Hyperplastic nodules in rat mammary glands following the feeding of 4-acetylaminobiphenyl, 95.

TUBA, J., RAWLINSON, H. E., SHAW, L. G., FRASER, M. S., and JESKE, I.—The effect of age, sex, and previous pregnancy on oxygen uptake of mammary tissue of mice of the $C_{57}BL$, A, and C_3H strains, 400.

TUBA, J. and WIBERG, S.—On rat serum amylase. I. Studies in the normal and the alloxan diabetic animal, 377.

WARSON, M. D.—See Prueter, R. D.

WAUD, R. A.—See Deneau, G. A.

WEBBER, R. V.—See Young, E. G.

WHITE, A. V.—See Begg, R. W.

WIBERG, S.—See Tuba, J.

WOOD, W.—See Duncan, D.; Franklin, A. E.

WOOD, W., CLARK, E. M., SHIMADA, F. T., and RHODES, A. J.—Poliomyelitis in Canadian Eskimos. Laboratory studies. IV. Antigenic typing of virus strains in monkeys and in tissue cultures, 207.

WRIGHT, W. D.—See Zbarsky, S. H.

YOUNG, E. G.—See Allen, T.

YOUNG, E. G. and WEBBER, R. V.—On the origin of human plasma proteins: Electrophoretic analyses in selected pathological states, 45.

ZAMENHOF, S., ALEXANDER, H. E., and LEIDY, G.—Biological activity of the nucleic acids, 252.

ZBARSKY, S. H. and WRIGHT, W. D.—The metabolism of C^{14}-urea in the rat, 151.
